

When you open
the NHS App
you will see
your name and
NHS number at
the top of the
screen

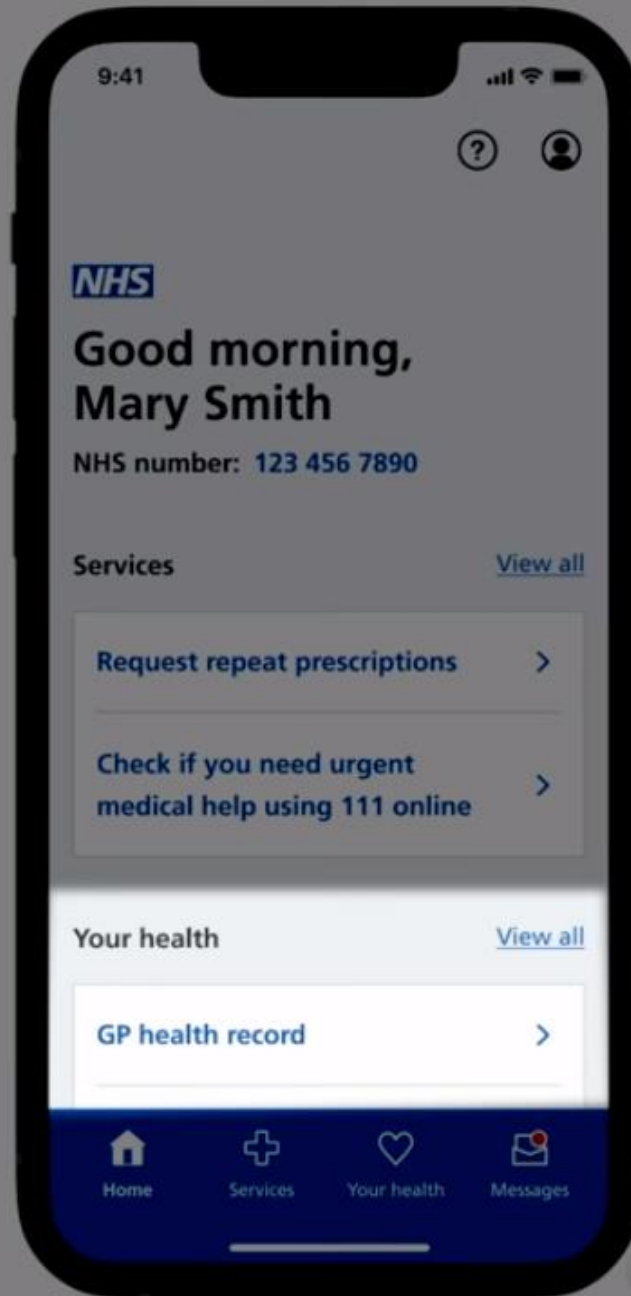

boxes under the headings 'services' and 'your health' take you directly into popular areas of the App

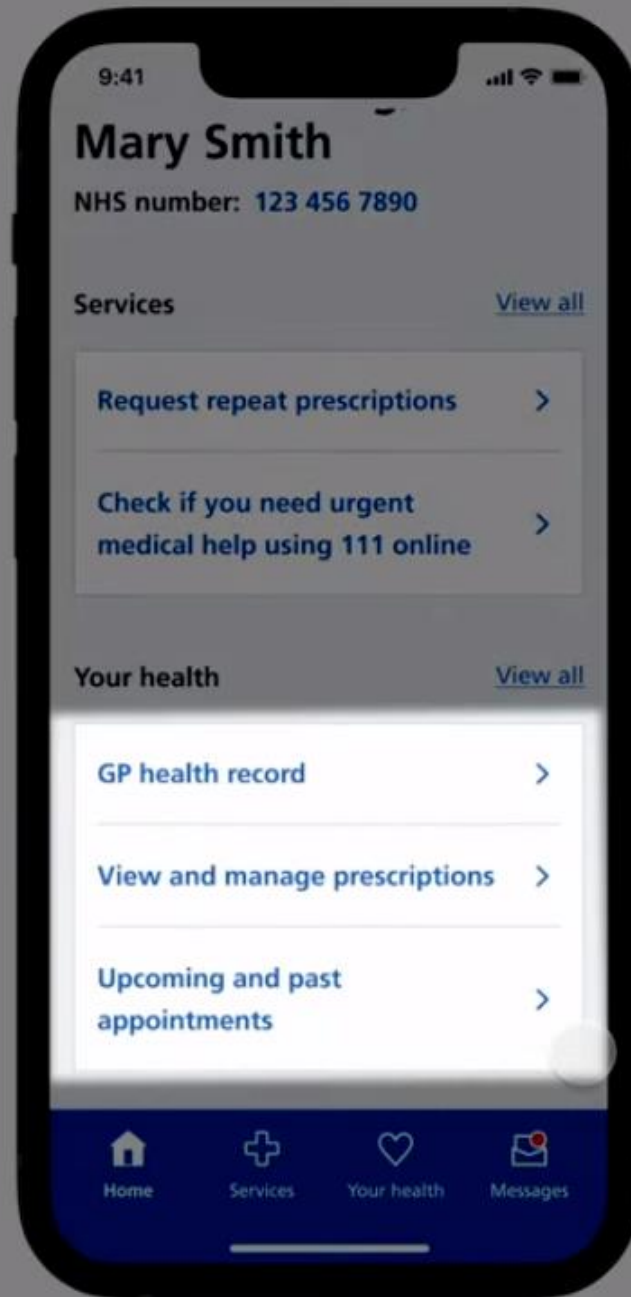

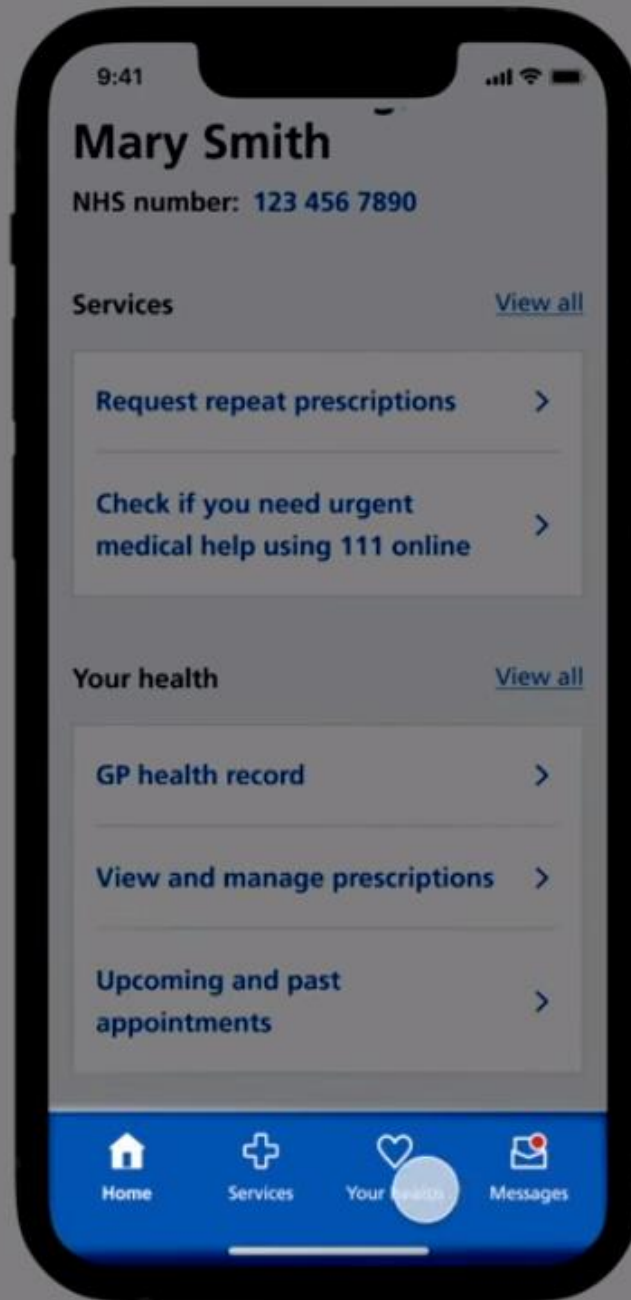

you can use
the 'services'
area of the App
to look after
your health by
ordering
prescriptions,
or checking
appointments

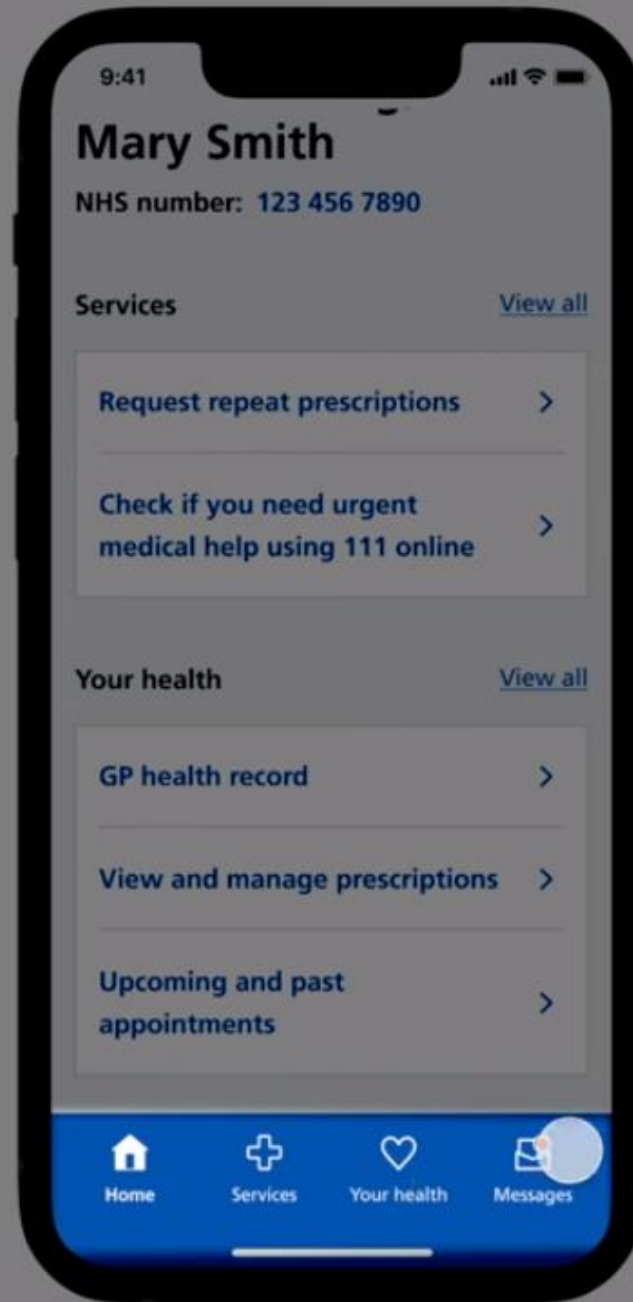

**you can use the
'Your health'
area to see
and manage
your healthcare,
personal
information and
records**

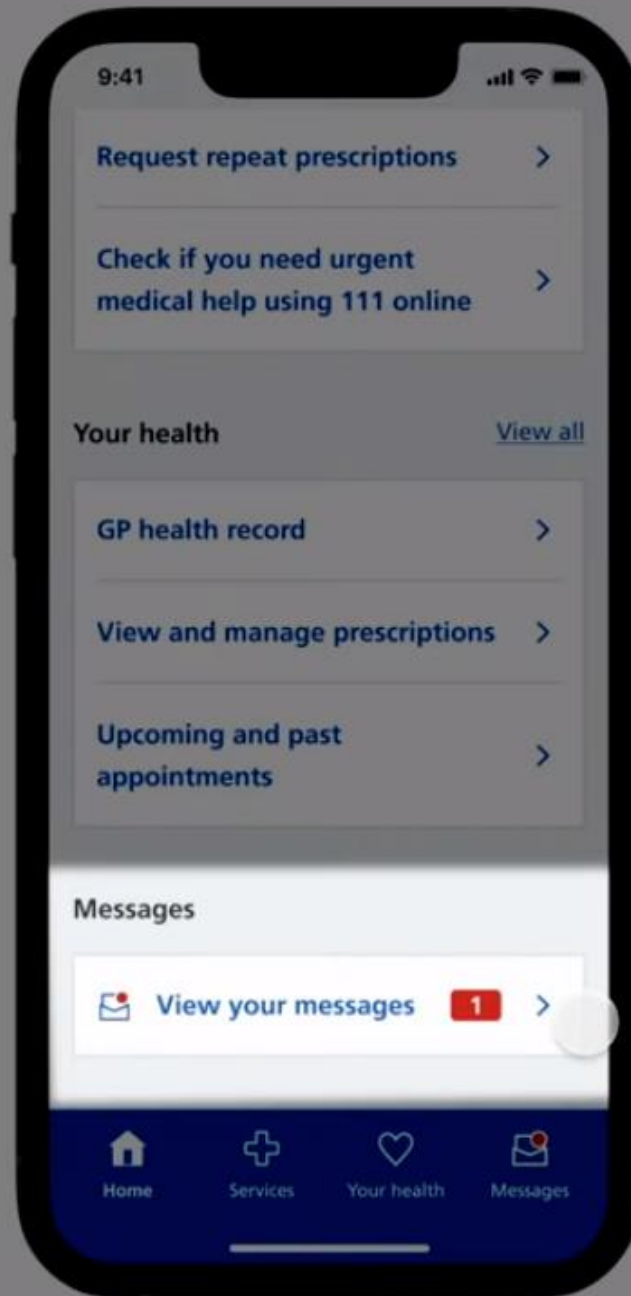

**you can also
use the icons at
the bottom of
the screen**

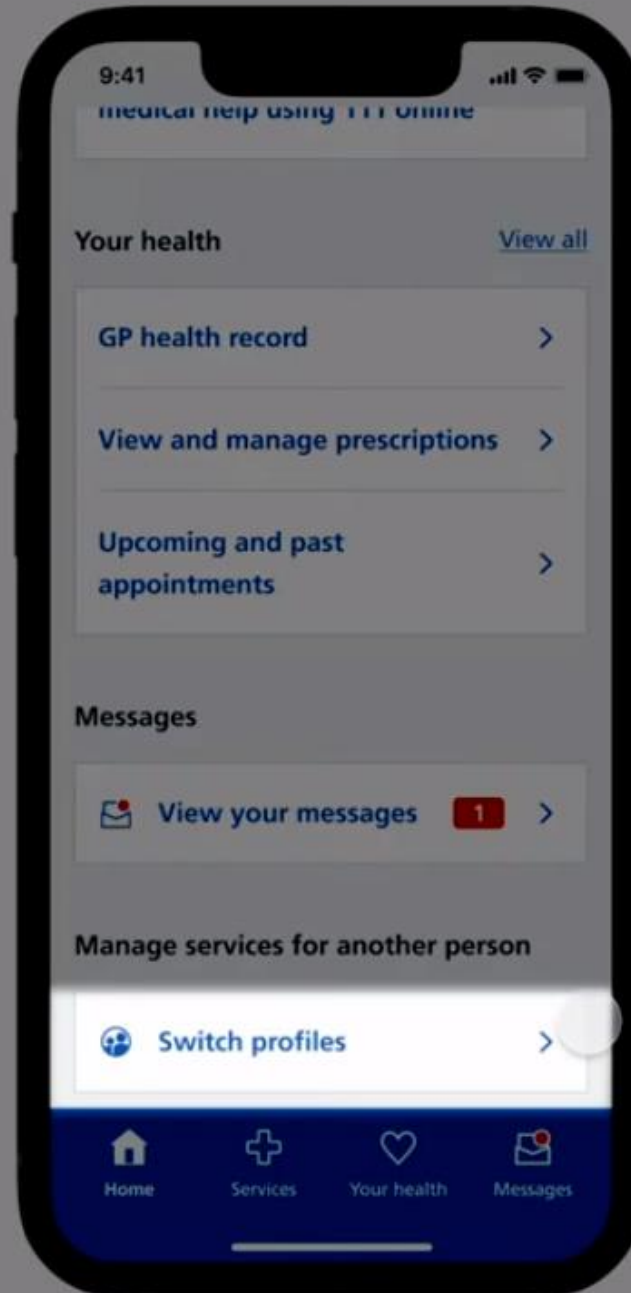

**to see everything
in those two
main sections**

**scroll down the
screen to see
your messages**

**you can switch
profiles and see
the NHS App
account of a
relative or
person you care
for**
